

1/21

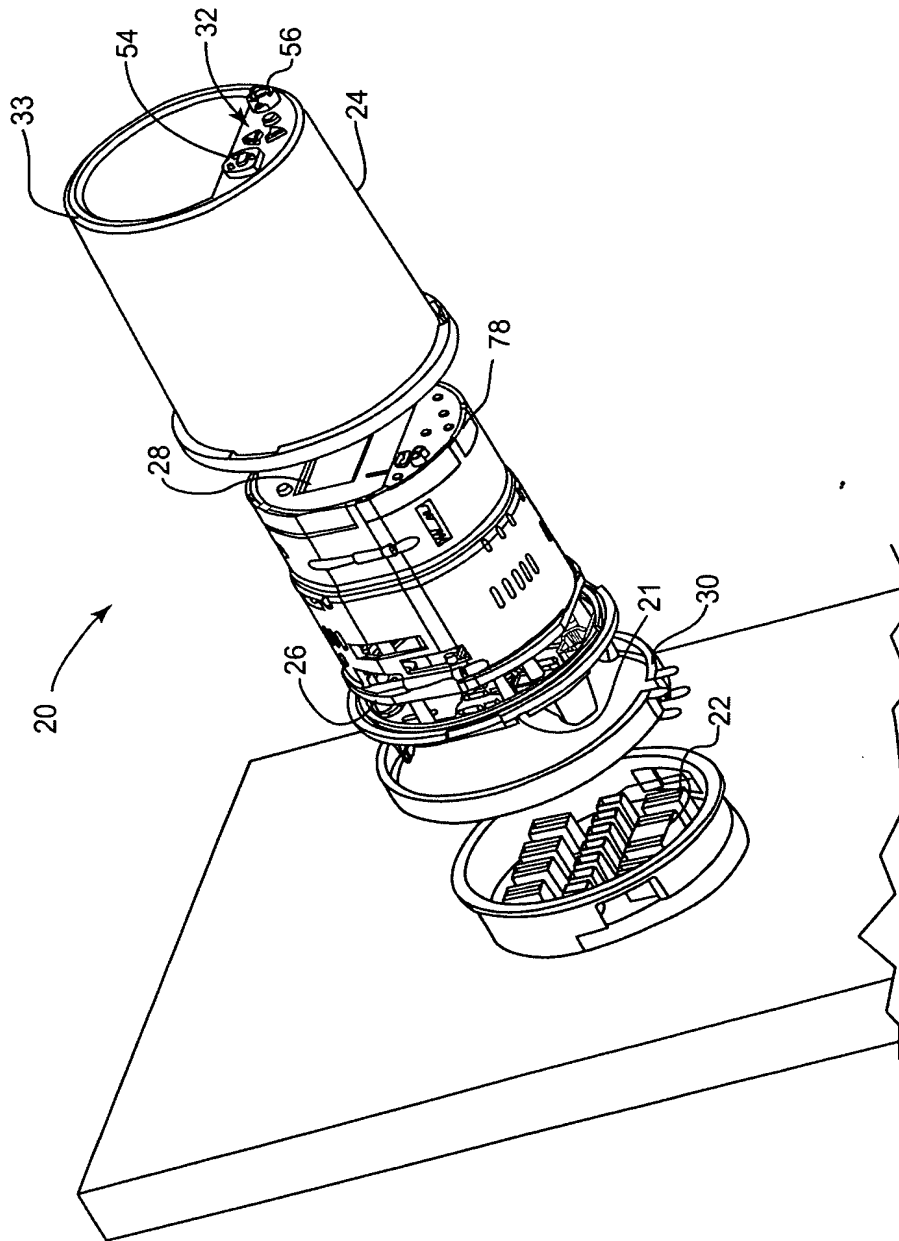

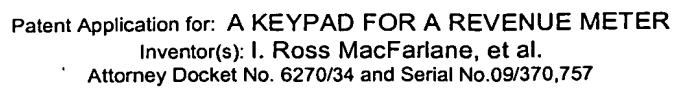

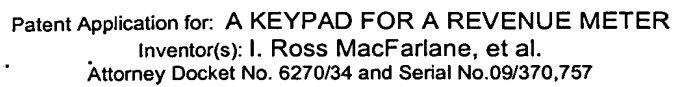

FIG. 1

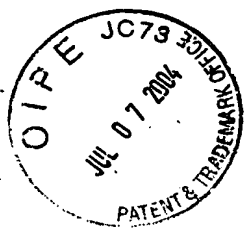

This diagram shows an exploded perspective view of a cylindrical electronic device assembly. The main body (24) is a hollow cylinder with a top flange (30) and a bottom flange (32). A top cover (33) is shown above the top flange, and a bottom cover (34) is shown below the bottom flange. The bottom cover (34) is shown in an exploded position, revealing internal components including a printed circuit board (26) with various electronic components (28) and a connector (36) with pins (38). The top cover (33) is shown in an exploded position, revealing internal components including a printed circuit board (30) with various electronic components (32) and a connector (34) with pins (36). The bottom cover (34) is shown in an exploded position, revealing internal components including a printed circuit board (26) with various electronic components (28) and a connector (36) with pins (38).

FIG. 2

This exploded perspective view shows the device 42 in an open position. The front cover 44 is shown detached from the main housing 46. The housing 46 contains a circular display 28 and a control panel 32. The control panel 32 includes a power button 34, a volume button 36, and a directional pad 38. The back cover 48 is shown detached from the housing 46. The back cover 48 includes a camera lens 50 and a microphone 52. The device 42 is shown in an exploded view, indicating the assembly of the front cover 44, the housing 46, and the back cover 48.
